Expert – Proficiency in HTML, CSS, and JavaScript, React.js, Angular, or Vue.js.

Advanced – Responsive Design, Bootstrap, Flexbox, Grid, Cross-Browser Compatibility, Mobile devices.

Comfortable – RESTful APIs and AJAX, Testing and Debugging, Package Managers, Build Tools.

Soft skills – Communication, Problem-Solving, Attention to Detail, Time Management.

Experience

Full Stack Engineer | SocialConnect Inc. | Jan 2022 – current

SocialConnect Inc. is a leading social media platform with millions of active users worldwide.

- Developed responsive user interfaces for SocialConnect's main platform, ensuring seamless user experiences across desktop and mobile devices.
- Collaborated with UX/UI designers to implement interactive and visually appealing features, enhancing user engagement and satisfaction rates by 25%.
- Led a cross-functional team in the redesign of the news feed algorithm, resulting in a 30% increase in user retention and a 20% boost in daily active users.
- Implemented real-time notifications using WebSocket technology, improving user engagement and interaction rates by 40%.
- Conducted regular code reviews, mentored junior developers, and implemented best practices, leading to a 15% improvement in overall team productivity.
- Collaborated closely with backend engineers to design RESTful APIs and ensure seamless integration between frontend and backend systems, enhancing overall system stability and reliability.
- Actively participated in hackathons and innovation challenges, leading a team to develop a prototype for a new feature, which was later incorporated into the company's main product, boosting user engagement by 35%.
- Mentored interns and junior developers, fostering a culture of learning and innovation within the frontend development team.

Full Stack Developer | Tech Innovators Co. | Jan 2020 – Jan 2022

Tech Innovators Co. is a cutting-edge technology company specializing in innovative software solutions.

- Developed highly interactive and responsive web applications for Tech Innovators Co.'s flagship product, leading to a 40% increase in user engagement and a 25% decrease in bounce rates.
- Collaborated with product managers and UX designers to create visually appealing and intuitive interfaces, resulting in a user satisfaction rating of 4.8 out of 5 in user feedback surveys.
- Implemented advanced animations and transitions using CSS3 and JavaScript, enhancing the overall user experience and contributing to a 30% decrease in user frustration incidents.
- Led the migration of the company's legacy frontend codebase to a modern framework, reducing load times by 60% and improving maintainability for future enhancements.
- Conducted regular performance audits and implemented optimizations, resulting in a 50% improvement in website loading speed and a 20% increase in user retention rates.
- Worked closely with backend engineers to optimize API requests, reducing frontend load times by 50% and enhancing the platform's overall performance.
- Implemented A/B testing strategies for various frontend features, analyzing user behavior data to drive data-driven design decisions and improve user experience.
